Oh My Zsh

To install the famous framework

```
$ curl -fsSL --output omz_installer.sh https://raw.github.com/robbyrussell/oh-my-zsh/maste
```

Read the script over to ensure it's safe, and then execute it:

```
zsh omz_installer.sh
```

Restart iTerm2 to experience the new world of Oh My Zsh.

```
sh ./omz_installer.sh
```
